April Snow

Marie Fredriksson

You said, it's six weeks since she left you And you looked at me with tears in your eyes "But I think of her with all my respect", you said "I'm always gonna love her, I never will forget her She's always gonna be a part of me"

When April snow is falling And you wish you were somewhere else When you wake up in the darkest part of the night When April snow is falling down

After two bottles of wine and really late in the night You said, "I'd better be going home I don't care where I sleep tonight I'm always gonna love her, I never will forget her She's always gonna be a part of me"

When April snow is falling And your heart is no longer what it was When you're blinded by tears And you cannot see the sun

When April snow is falling down When April snow is falling down When the morning sun keeps you blind Keeps you blind When April snow is falling down April snow is falling down, down When April snow is falling down
