

# Beyond Tonight

Marie Serneholt

This aint no one man show  
Not a solitary game  
You know as well as I  
I'm not the only one to blame  
Fear of attention, scared to be abused  
Tell me, if we have nothing  
What is there to lose  
There to lose

Let's go beyond, beyond the distance  
We have ever gone before  
Let's go beyond, beyond the shadows  
Of not ever wanting more  
Everything is different now I know  
It's all I know  
To find out if we're wrong or right  
Let's go beyond tonight

This is a two way street  
With a cross road up ahead  
You know as well as I  
Hearts can be mislead  
Somehow it feels like  
This is ment to be  
To make it something  
Will you walk with me  
Walk with me

Let's go beyond, beyond the distance  
We have ever gone before  
Let's go beyond, beyond the shadows  
Of not ever wanting more  
Everything is different now I know  
It's all I know  
To find out if we're wrong or right  
Let's go beyond tonight

To see what tomorrow knows  
See what tomorrow holds  
Let go of all resistance  
The road ahead is open wide  
Hold me now, let us see  
What's on the other side

Let's go beyond, beyond the distance  
We have ever gone before  
Let's go beyond, beyond the shadows  
Of not ever wanting more  
Everything is different now I know  
It's all I know  
To find out if we're wrong or right  
Let's go beyond tonight
