Beyond Tonight

Marie Serneholt

This aint no one man show

Not a solitary game

You know as well as I

I'm not the only one to blame

Fear of attention, scared to be abused

Tell me, if we have nothing

What is there to lose

There to lose

Let's go beyond, beyond the distance We have ever gone before
Let's go beyond, beyond the shadows
Of not ever wanting more
Everything is different now I know
It's all I know
To find out if we're wrong or right
Let's go beyond tonight

This is a two way street
With a cross road up ahead
You know as well as I
Hearts can be mislead
Somehow it feels like
This is ment to be
To make it something
Will you walk with me
Walk with me

Let's go beyond, beyond the distance We have ever gone before
Let's go beyond, beyond the shadows
Of not ever wanting more
Everything is different now I know
It's all I know
To find out if we're wrong or right
Let's go beyond tonight

To see what tomorrow knows See what tomorrow holds Let go of all resistance The road ahead is open wide Hold me now, let us see What's on the other side

Let's go beyond, beyond the distance We have ever gone before
Let's go beyond, beyond the shadows
Of not ever wanting more
Everything is different now I know
It's all I know
To find out if we're wrong or right
Let's go beyond tonight
