

Faith

Marillion

What I have here in my heart
Is like faith, but not faith
For those without faith also have
What I have here in my heart

What I have here in my hand
Is like feeling but deeper
That's why I am here

What I have here in this room
Is knowledge without proof
What I have here in my hands
This is what I feel for you

It's why the Earth is alive
And makes electricity work
And fire dance in the sky

I feel inside the atoms
Where the science breaks down

What I have here in my hand
Is like faith, but not faith
For those without faith also have
What I have here in my hand

What I have here in my hand
Is like knowing but deeper
It's why I have faith
