Go!

Marillion

Turn your life upside down
Take a car into town
Wait until the world's asleep
And tear it up and never stop again
Take a train to the sea
Stay up all night ..and be
It only takes a fraction of a second
To turn your life upside down

Take a train to the sea
Be anyone you want to be
A little spark of light inside your mind
Safe and sound off the ground upside down

Wide awake on the edge of the world
