

If My Heart Were A Ball It Would Roll Uphill

Marillion

Did you ever fall in love?
Did you ever fall in love?
Did you ever fall in love?
Did you ever dream of falling?

If my heart were a ball
It would roll uphill

We are alone in the world
We must do what we feel we should
We are told what is right
Need hurts within us

We can see sense
We can feel what feels right
And so often, all these things
Are not at all the same
They're not at all the same

If my heart were a ball
It would roll uphill
If my heart were a ball
It would roll uphill

Did you ever dream of running
And find you couldn't move?
Did you ever dream of running
Running scared, ankle deep in glue?

With the monster after you
And it's catching up
Monster's catching up

And it's catchin' up and you're going nowhere
And you're slowin' up and you can't wake up
And it's catchin' up and you're going nowhere
Wake up, wake up, you're falling

If my heart were a ball
It would roll uphill

Did you ever see a shadow
Cast against your bedroom wall?
Crooked shadow in the lamplight
Ten feet tall

Did you ever dream of falling
And find you couldn't move?
Did you give up
And discover that you haven't given up?
Did you ever dream of falling?
Did you ever fall in love?

Hard ball dream, love now roll
Fall clown, stain truth, space time
Race give black white all one
Church state God fast as I could cry

Laugh, hide, feel no clouds
Will to win, sweet seed you, me
Hard ball dream love now roll
Fall clown stain truth space time

Never do that, never do that
Will to win, will to win, never do that
Give black white all one wild
Church state now roll

Fall clown, stain truth, space time
Race fruit give
Never do that

If my heart were a ball
It would roll uphill
All one insane wild sweet heart
Wild rose

Did you ever fall in love?
