

See It Like A Baby

Marillion

Looking at a star you've never seen before
Try to forget it
So you can see it
Tasted like you've never tasted it before
Try to forget it
So you can remember it

You see it like a baby
You see it like a baby
You see it like a baby
You see it like a baby

Love her like you've never fallen in love before
Fall out of love with her
So you can remember
And love him like you've never been with him before
Try and forget it
So you can remember it

You see it like a baby
You see it like a baby
You see it like a baby
You see it like a baby

You see it like a baby
You see it like a baby
You see it like a baby
You see it like a baby

Ooh ooh ooh ooh ooh

You see it like
You see it like
You see it like a baby
You see it like
You feel it like
Feel it like
You touch it like
You touch it like
You touch it like
You touch it like...
