Marilyn Manson

When you wish upon your star Don't let yourself fall, fall in too hard I fell into you and I'm on my back An insect decaying in your little trap I squirm into you, now I'm in your gut I fell into you, now I'm in a rut "I lift you up like the sweetest angel, I'll tear you down like a whore. I will bury your god in my warm spit, You'll be deformed in your porn" Rock star, yeah (you're such a dirty, dirty) Rock star, yeah (dirty, dirty, dirty) You eat up my heart and all the little parts Your star is so sharp It leaves me jagged holes I make myself sick just to poison you If I can't have you then no one will

[chorus]

You are the one I want and what I want is so unreal I'm such a dirty Rock star yeah...
(I am the one you want and the one you want is so unreal)
