## **Just A Friend**

## Mario Vazquez

Ohhh yeah Yeah, yeah, yeah

I can't believe it girl You wanna leave me girl Let's fall in love again Baby she was just a friend And now I'm tryna call But your phone is off I know I broke your heart But baby she was just a friend Ain't nothing different here No need to disappear Let's fall in love again Baby she was just a friend Don't wanna fall apart Tried to stop her from the start I know I broke your heart But baby she was just a friend

Open the door (baby) I can hear your phone (ringing) Plus your car is rom so I know you just got home I hear you breathing real hard So close to you Yet I'm so far We gotta talk this thing over You still haven't heard my story, no

Baby I need you I'm gon' stand right here Until your heart agrees to Let me in Cuz nothing else matters My life is ungathered Don't let us be a memory

I can't believe it girl You wanna leave me girl Let's fall in love again Baby she was just a friend And now I'm tryna call But your phone is off I know I broke your heart But baby she was just a friend Ain't nothing different here No need to disappear Let's fall in love again Baby she was just a friend Don't wanna fall apart Tried to stop her from the start I know I broke your heart But baby she was just a friend

Baby, don't speak (speak) Just sit (no, no don't leave) See I'm not gonna let us not be together, no There's not too much that I can say Just wanted you to see my face So you can see the expressions of my deepest regrets Sayin' oh, oh, oh, oh, oh Don't go, don't go (baby) Let me in

Cuz nothing else matters My life is ungathered Don't let us be a memory

I can't believe it girl You wanna leave me girl Let's fall in love again Baby she was just a friend And now I'm tryna call But your phone is off I know I broke your heart But baby she was just a friend Ain't nothing different here No need to disappear Let's fall in love again Baby she was just a friend Don't wanna fall apart Tried to stop her from the start I know I broke your heart But baby she was just a friend

I don't want you to go, no This ain't cool wit' me I know I cut you deep emotionally (emotionally) Don't nobody deserves this no, no So baby please believe me I can't believe it girl You wanna leave me girl Oh, and baby she was just a friend I'm trying to call Oh, I know I broke your heart

I can't believe it girl You wanna leave me girl Let's fall in love again Baby she was just a friend And now I'm tryna call But your phone is off I know I broke your heart But baby she was just a friend Ain't nothing different here No need to disappear Let's fall in love again Baby she was just a friend Don't wanna fall apart Tried to stop her from the start I know I broke your heart But baby she was just a friend
