

# One Shot

Mario Vazquez

Ohhh yeah

If I were a builder  
Then you'd have a castle  
To rival the highest mountain  
And if I were a billionaire  
I'd give you every material thing  
But unfortunately all I have to give to you  
Is an imperfect heart  
But it's a heart that beats only for you

Listen to this girl if you give me one shot  
I will love you forever now  
No man will do you better now  
Love is a risk  
But if you give me one shot  
I will show you your the only girl  
In the world who can  
Give me this feeling  
Baby, that's how I feel about you  
Your one in a million  
I'd rather die than live without you  
We can't miss  
So if you give me one shot  
We can do it girl {we can do it girl} do it girl

I'm talkin' 'bout love in the mornin'  
Just like you want it  
Anything you need you can call me for it  
Now girl I'm only human  
I'm full of many faults  
I'm guaranteed to fall short (guaranteed to fall)  
But you'll never hear about me cheating  
Cause I never would betray your trust  
No matter what  
I will look to you and only you for love  
I treat your soul like it was mine  
What a privilege to me to breathe your air  
Doesn't that say that I care?

Listen to this girl if you give me one shot  
I will love you forever now  
No man will do you better now  
Love is a risk  
But if you give me one shot  
I will show you your the only girl  
In the world who can  
Give me this feeling  
Baby, that's how I feel about you  
Your one in a million  
I'd rather die than live without you  
We can't miss  
So if you give me one shot  
We can do it girl {do it girl} do it girl

I'm talkin' all my heart  
All my soul

Always stay  
Never go  
Ohhh yeah  
But unfortunately all I have to give to you  
Is an imperfect heart  
But it's a heart that beats only for you

Listen to this girl if you give me one shot  
I will love you forever now  
No man will do you better now  
Love is a risk  
But if you give me one shot  
I will show you your the only girl  
In the world who can  
Give me this feeling  
Baby, that's how I feel about you  
Your one in a million  
I'd rather die than live without you  
We can't miss  
So if you give me one shot  
We can do it girl {do it girl} do it girl

I'm talkin' 'bout everyday  
Every night  
The rest of your days  
The rest of your life

Listen to this girl if you give me one shot  
I will love you forever now  
No man will do you better now  
Love is a risk  
But if you give me one shot  
I will show you your the only girl  
In the world who can  
Give me this feeling  
Baby, that's how I feel about you  
Your one in a million  
I'd rather die than live without you  
We can't miss  
So if you give me one shot  
We can do it girl {do it girl} do it girl
