

I Got You Babe

Mario Winans

Sometimes in life
You come across a woman
It's just undeniable
And you searched for her so long
If finally hits you in your face
What did you do

Never knew too much about being in love
But I'm letting you show me
Now I can't do without feeling your touch,
Baby When you hold me

Every day's a holiday since you came my way, baby
It's more than I can say you'll forever be my babe
(All I want to is you, babe)

All I want to do is stay in love with you
What about you babe (What about baby)
I've got you babe (I've baby)
If they ask me all I want to is you (all I want is you)
So can we make this true
What about you babe (Ohhhh)
I got you babe (Ohhhh)

All I want to do

Sometimes it feels like it took
A million years for me to be happy
(Oh, oh, oh)
It's almost like a dream
But you're standing right here
Looking right at me

(Every day's a holiday)
Every day's a holiday since you came my way, baby
(Baby, it's a game I play)
It's more than I can say (More than I can say)
you'll forever be my babe (forever be my babe)
(All I want to do, babe)

All I want to do (aw babe) is stay in love with you
What about you babe (What about baby)
I've got you babe (I've baby)
If they ask me all I want to is you (all I want is you)
So can we make this true
What about you babe
I got you babe

All I want to do

I know that this could last forever
(We should last forever if you'll believe it, babe)
If you think we should be together (oh babe)
All I want is you baby!

All I want to do is stay in love with you
What about you babe

I've got you babe (I've got you baby)
If they ask me all I want to is you (all I want is you)
So can we make this true
What about you babe
I got you babe

All I want to do
