

# What's Wrong With Me

Mario Winans

Little tired, I can't sleep what's wrong with me?  
Still all in denial and you've been gone for weeks  
Now i know what i should've known right from the beginning  
My heart was blind and now i'm man enough to admit it.

I don't wanna go another day bein' without your love.  
(no i don't baby)  
I've been listenin to my heart and now its speakin bout love.  
(Tell me why baby)  
Tell my why you always have to leave and take your love away  
(you didnt have to do it baby)  
Now i realize you were the best for me just a little too late b  
aby

I shoulda trusted my instinct, whats wrong with me?  
Thought I learned all my lessons but i didn't learn a thing  
You once said that you couldn't take me where you was headed  
I cried inside and now i'm man enough to admit it

Now I miss you like a nigga should,  
miss you like a nigga should baby, baby (3x)
