Tossing and turning, I can't better be alone, that's bad is she

Wish I could say that what I'm feeling here is wrong, but it's
the truth,

I'm stuck on you

I've been wondering, if you think of me or the ways I think of
you

If the shoe was on the other foot, would it be a pair or two

I've been wondering if I'd played my cards, would they just fol
d?

If you take the chance and show your hand, we gotta play no mor
e

I'm telling you how bad I want you

I'm telling you the bad I won't do

It's bad that I can't have you

Like I want to

I'm telling you how bad I want you

I'm tryna get you where I want to

It's bad that I can't have you

Like I want to

It's gonna cause, a fatal distraction

It's gonna cause, a fatal distraction

Visions of making love to you all in my head

Don't wanna wait, can't concentrate

All I can think of is hearing you scream my name

It's gonna be, your body

I've been wondering, if you think of me or the ways I think of
you

If the shoe was on the other foot, would it be a pair or two?

I've been wondering if I'd played my cards, would they just fol
d?

If you take the chance and show your hand, we gotta play no mor
e

I'm telling you how bad I want you

I'm telling you the bad I won't do

It's bad that I don't have you

Like I want to

I'm telling you how bad I want you

I'm tryna get you where I want to

It's bad that I can't have you

Like I want to
It's gonna cause, a fatal distraction
