

Girl in the Picture

Mario

Think I love the girl in the picture
She's a fantasy someone that I need to see
Make a reality
Got me all outta control
Who do I gotta be
To make cutie wanna be wit be
I know that I need her
Go out my way and I'll do anything to meet her
Make her mine someday
Body got me in a zone
Who do I gotta be
To make cutie wanna be wit me

She's the type of girl in the magazine
front cover of the Seventeen
5 foot 11 know what I mean
Is she bout it bout
All the brothas always crowd around her
She is the one for me
I can picture us perfectly
In the 5 double O windows down low
Tippin off a shopping spree

I can see you and me (on the run)
You could be (my numba one) my lady
Don't wanna be your fan wanna be your man
I can see you and me (puttin time in)
You could be (like me best friend) my baby
Baby but I guess it only happens in my dreams

Think I love the girl in the picture
She's a fantasy someone that I need to see
Make a reality
Got me all outta control
Who do I gotta be
To make cutie wanna be wit be
I know that I need her
Go out my way and I'll do anything to meet her
Make her mine someday
Body got me in a zone
Who do I gotta be
To make cutie wanna be wit me

I can see us together at award shows
Just like P. Diddy and J.Lo
Cameras flash paparazzi what's the scoop yo
But the love we got
Will never go and we'll be proud about it
Posters on my wall wish that I could call you baby
Talk about how we were meant to be till both fall asleep I can see you and me

I can see you and me (on the run)
You could be (my numba one) my lady
Don't wanna be your fan wanna be your man
I can see you and me (puttin time in)
You could be (like me best friend) my baby

Baby but I guess it only happens in my dreams

Think I love the girl in the picture
She's a fantasy someone that I need to see
Make a reality
Got me all outta control
Who do I gotta be
To make cutie wanna be wit be
I know that I need her
Go out my way and I'll do anything to meet her
Make her mine someday
Body got me in a zone
Who do I gotta be
To make cutie wanna be wit me

Go to the limits babe
Anything just to see you face to face
What would I do if you were here with me
In reality it's all fantasy
You got what I want
And I try to get you outta my mind
Cuz I think about you all the time

Think I love the girl in the picture
She's a fantasy someone that I need to see
Make a reality
Got me all outta control
Who do I gotta be
To make cutie wanna be wit be
I know that I need her
Go out my way and I'll do anything to meet her
Make her mine someday
Body got me in a zone
Who do I gotta be
To make cutie wanna be wit me
