I'm not your man we're more than friends
We make love but I don't call you my lover
I do for you, you do for me
It works because we don't smother each other
It's short and sweet the time we spent
We can't take a second of it for granted
No
I barely understand it
Not the way I planned it
Why can't it just be what it is?

What's in a name if we got what we need
Ain't nobody comin' between us but me
Everything I told you about my love I mean
I said everything that I said I mean

Actions speak louder than words
(baby don't i) treat you the way you deserve
We don't need we don't need (no) definition
We don't need we don't need (no) definition
What I feel is real and if you look that up
Want half of the world to see a picture of us?
We don't need we don't need (no) definition
We don't need we don't need(no) definition

We shop, we dine, spend cuddle time
Come over but only on invitation
Not now in time we're border line
I like you but don't quit your occupation
My heart my ace but just in case
Let's stay open to other situations
Why tell you we gone be more
Keep you on a leash for
I don't wanna string you along girl

What's in a name if we got what we need
Ain't nobody comin' between us but me
Everything I told you about my love I mean
I said everything that I said I mean

Even though we used to titles and getting made (up)
Baby this time we should leave this part alone (cause)
If this working for us
Then it's working for us
Don't go messin' it up don't go messin' it up
Even though we used to titles and getting made (up)
Baby this time we should leave this part alone (cause)
If this working for us

Then it's working for us
Don't go messin' it up don't go messin' it up
