

# Ooh Baby

Mario

I think this one's for the radio  
(turn the lights on)  
I think this one's for the radio  
Baby, yeah

Hold on  
Don't say nothing I just wanna make sure that your eyes are working  
And what goes on, here  
Only concerns the two of us  
Cause it's only the two of us  
And I feel like it's 'bout time for me to show you all, girl  
All the freaky things that I'm thinking, baby

Your clothes are all off  
And the bed is right there  
Besides your high heels all you're wearing is your hair  
I could break it down for you if you not scared  
Like ooh, ooh, ooh baby  
Pleasure principle can you work it in the chair  
And I can get you right  
With your legs up in the air  
Now I could break it down for you if you not scared  
Like ooh, ooh, ooh baby  
Baby, baby, ooh, ooh, ooh baby  
Baby, baby, ooh, ooh, ooh baby

It's been so long  
Since somebody put it on ya like I'm 'bout to put it on ya  
Let's make one thing, clear  
The things I'm 'bout to show you, I already know you gon' love, girl  
And it's gonna be so fine for me to break you off, girl  
Because I know just what your body needs, baby

Your clothes are all off  
And the bed is right there  
Besides your high heels all you're wearing is your hair  
I could break it down for you if you not scared  
Like ooh, ooh, ooh baby  
Pleasure principle can you work it in the chair  
And I can get you right  
With your legs up in the air  
Now I could break it down for you if you not scared  
Like ooh, ooh, ooh baby  
Baby, baby, ooh, ooh, ooh baby  
Baby, baby, ooh, ooh, ooh baby

I wanna hear your body say my name, say my name  
And you gon' be so happy that you came, to get it baby  
So gon' get outta them clothes, go head and go down, over there on the floor  
I'm dedicated, to pleasing you  
I know you're ready baby

Your clothes are all off  
And the bed is right there  
Besides your high heels all you're wearing is your hair  
I could break it down for you if you not scared  
Like ooh, ooh, ooh baby

Pleasure principle can you work it in the chair  
And I can get you right  
With your legs up in the air  
Now I could break it down for you if you not scared  
Like ooh, ooh, ooh baby  
Baby, baby, ooh, ooh, ooh baby
