

Driving

Marion Raven

Are you're ready, are you're ready cause I'm good to go
Our song is blasting from the radio
Oh...
Pick me up at midnight. By the light
Oh...
I want you to take me, take me with you

Driving, driving fast with you
Nothing really matters when we're
Driving, driving fast with you
Turn on the stereo
And paint me a picture
How the world should be
Because the girl on the radio,
On the radio is me

If we spend all our money we can tank her up
We can go until the morning we don't need to stop
I'm loving it when we go with no direction
Looking at you your smile is so infectious
Don't go easy
Don't go easy
