

Safe and Sound

Marion Raven

Reading through old paperbacks
While singing on a tune
Looking through the window
Hoping you will be here soon

Some say the sun don't shine
I'm willing to agree
As long as I got you around
It doesn't bother me

Come on and sing
Feel the world inside
I would appreciate it if you didn't hide
So many wonders all around
Rain and thunder makes me safe and sound
Waking up remembering the day when I met you
Lying here in bed all morning is all I wanna do

Listening to the radio
They're playing our tune
Looking through the window
Hope you'll be here soon
