

All Of These Days

Marion

And it seems as though you're going forward
Ignore your problems but you've left us
Without a piece of you that we need to use to get to you
And to get some attention but you refuse to give, yeah

But then oh, oh, so on we go
Oh, on we go until we find someone
Until then

All of these days, days, days
Oh, they blend into something
Into something in the colorful nineties
All of these days, days, days
Oh, they blend into something, 90 something

Now you're coming forward, ignore it all but
Leave us some of you 'cause I need to abuse
Myself by the grace of your presence
But just please, don't leave me here

But then oh, oh, so on we go
Oh, on we go until we find someone
Until then

All of these days, days, days
Oh, they blend into something
Into something in the colorful nineties
All of these days, days, days
Oh, they blend into something, 90 something

But then oh, oh, so on we go
Oh, on we go until we find someone
Until then

All of these days, days, days
Oh, they blend into something
Into something in the colorful nineties
All of these days, days, days
They blend into something
90 some, 90 some, something
