

Dying Breed

Marissa Nadler

Red is the color of memory
Blue is the way to green
And darling you did gamble
'cause you were a dying breed
Yes you were a dying breed

Yellow the color of your skin
Black was the color of your hair
Your earthly days have passed you by
Where oh where oh where did you go
When they took your bones
Did you go when they took your bones and ran

Red is the color of memory
Blue is a way to green
And darling you did gamble
'Cause you were a dying breed
Yes you were a dying breed

Frank this song is for you love
And for your curly hair
Your earthly days have passed you by
Where oh where oh where did you go
When they took your bones
Did you go when they took your bones and ran
