

Don't Save Me

Marit Larsen

You say
We must move forward
And I say
Let's not go back
Once we were brave explorers
But this trail is a
worn out track

Don't chase that setting sun
Look what we've become

Don't save me
I'll save you the hassle
Our little castle
Is a house of cards
This empty heartache's pending
This is us ending

You say You were just kidding
And I say This is no joke
We've grown and
we're not fitting
We've flamed now to a
wisp of smoke

Don't turn the truth around
It reads the same
way upside down

Don't save me
I'll save you the hassle
Our little castle
Is a house of cards
This empty heartache's pending
This is us ending
So don't save me
Don't you dare

Little by little
Sneaking upon
Until it's too much to ignore
Let's live in the middle
Before it dead ends
I've been down this road
Don't you dare
Leave me here
I'll go looking elsewhere

Don't save me
I'll save you the hassle
Our little castle
Is a house of cards
This empty heartache's pending
This is us ending
So don't save me
Don't you dare
