

# Steal My Heart

Marit Larsen

If you are going to steal my heart  
Steal it like you mean it  
If you want to take a part  
Then give me something to believe in

'Cause the road it ain't getting longer  
And my heart it ain't getting younger  
For now, the love that we make it's a razorblade  
And I don't want to hurt any longer

Steal my heart

Let me hear it in you voice  
Let there be no question  
Leave me with no other choice  
Then open up to let the light in

The road it ain't getting longer  
And my heart it ain't getting younger  
For now, the love that we make it's a razorblade  
And I don't want to hurt any longer

Steal my heart

I'm crazy about you  
So lonely without you  
I love you, I love you, I love you

Away with the trouble  
I'll just make it simple  
I'll be anything that you want

So if you want to break my heart  
Break it like you mean it  
If you want our ways to part  
Then turn away so I can see it

'Cause the road it ain't getting longer  
And my heart it ain't getting stronger  
Oh the road it ain't getting longer  
And my heart it ain't getting younger  
For now, the love that we make it's a razorblade  
And I don't want to hurt any longer
