Fallin' Never Felt So Good

Mark Chesnutt

There's a photo in my baby book Of the first step that I ever took I ended up on my butt with a puzzled look Ever since I've been kinda confused When life tripped me up I was easily bruised But time has a way of healing wounds Now, I'm a guy who does what he feels But I never seem to spot that banana peel With eyes shut tight and nerves of steel I'm takin' the plunge, baby head over heels.

Fallin' never felt so good It don't scare me like I thought it would Tumblin' down, droppin' fast I got a feelin' that it's gonna last Here I come baby ooh, ooh, ooh Fallin' in love with you.

Who can say what may lie in store Smooth sailin' on a sea of love or Runnin' aground on a rocky shore Now that I've found you I'm not lettin' go 'Cause I've been searchin' high and low Only one thing that I know The higher you take me the deeper I go.

Fallin' never felt so good It don't scare me like I thought it would Tumblin' down, droppin' fast I got a feelin' that it's gonna last Here I come baby ooh, ooh, ooh Fallin' in love with you.

Fallin' never felt so good It don't scare me like I thought it would Tumblin' down, droppin' fast I got a feelin' that it's gonna last Here I come baby ooh, ooh, ooh Fallin' in love with you.

Fallin' never felt so good
It don't scare me like I thought it would
Tumblin' down, droppin' fast
I got a feelin' that it's gonna last
Here I come baby ooh, ooh, ooh
Fallin' in love with you...
