

# Texas Is Bigger Than It Used To Be

Mark Chesnutt

Lucky me, I grew up  
Beneath that ol' lone star  
I was raised on fiddle and steel guitar  
It used to be if you wanted to swing  
To a good ol' country song  
You had to find your way to Fort Worth  
Houston, Dallas, San Antonio  
But how it's grown

Texas is bigger than it used to be  
It's coast to coast alive in most  
Every town and city  
I should know, I'm on the road  
And lovin' what I see  
Texas is bigger than it used to be

It's one, two, three step  
Dancin' in line  
Stretchin' that denim having a good time  
My daddy told me years ago  
Son, there'll come a day  
It'll spread to Minnesota  
New York City to L.A.  
What can I say

Texas is bigger than it used to be  
It's coast to coast alive in most  
Every town and city  
I should know, I'm on the road  
And lovin' what I see  
Texas is bigger than it used to be
