

Trouble

Mark Chesnutt

You're gonna get me into trouble
I knew it right off the bat
You're gonna get me into trouble
If you keep looking like that.

I may be alone but there's someone at home
I just know I'm making a mistake
A woman like you walks in a place like this
You can almost hear the promises break.

You're gonna make me need an alibi
You're gonna make me have to watch my back
You're gonna make me have to tell a bunch of lies
You're gonna make me have to cover my tracks.

Well I told her I wouldn't
I thought that I couldn't
Now I'm so ashamed
When I look at you
It's all that I can do
To think about what's her name.

You're gonna get me into trouble
I knew it right off the bat
You're gonna get me into trouble
If you keep looking like that.

Dont' look like that, baby
No, no, no, no.

You're gonna mix my emotions
And you're gonna tangle my net
You're gonna make me do somethin'
That I'm afraid I won't regret.

I may be alone but there's someone at home
I just know I'm making a mistake
A woman like you walks into a place like this
You can almost here the promises break.

You're gonna get me into trouble.
You're gonna get me into trouble.
You know you're gonna get me.
You know you're gonna get me.
You know you're gonna get me in trouble now don't you?..
