All That Matters

Mark Knopfler

My darling girl
My darling girl
You're all that matters
In this wicked world
All that matters
All that matters
My darling boy
My darling boy
All of my sunshine
And all of my joy
You're all that matters
All that matters

Well, I can't stop the pain When it calls I'm a man And I can't stop the rain When it falls, my darling Who can?

My darling girl
My darling girl
You're all that matters
In this wicked world
All that matters
All that matters

Well, I can't stop the pain When it calls I'm a man And I can't stop the rain When it falls, my darling Who can?

My darling girl

My darling girl

You're all that matters

In this wicked world

All that matters

All that matters

My darling friend

My darling friend

All we've got going

Is love in the end

It's all that matters

All that matters

It's all that matters

All that matters

All that matters
