## **Pill Hill Serenade**

## **Mark Lanegan**

Tail lights through silver rain Somebody's excited to be goin' away Spring like December on the corner now Let the memory fade and I'll forget

Well, I hope she's not alone Smiling everywhere she goes, so sweet Then I remember she's a little older now I'd let that fade but I don't know how

And when the sun comes up dead You get sick of it, makes a howling in your head All the time

Springtime or December, can't find cover now Children they get excited when the sun comes around I'm gonna walk in silver rain, look for mine the same Walk for miles 'til the memory fades

And when the sun comes up dead

Makes it hard when you know

That it's a story that gets told all the time
