

New Years Day

Mark Lind

Even if we all fall flat this year we'll get up and persevere
Even if we all fall flat this year we'll get up and persevere

Honey, I ain't proud of the things I've done
Or the way that I've treated you
But history just repeats itself and these are the things I do
I put the knife in my own heart
I put the knife in my own heart
It was always me.
It was me right from the start

Even if we all fall flat this year we'll get up and persevere
Even if we all fall flat this year we'll get up and persevere
And if you should fall a bit behind
I'll carry you on. I'll carry you on from there

An idle mind ain't no friend of mine
And the bottle's my enemy
The face in the mirror is the face of fear cuz I fear where we'
ll go from here
I put the knife in my own heart
I put the knife in my own heart
It was always me.
It was me right from the start

Even if we all fall flat this year we'll get up and persevere
Even if we all fall flat this year we'll get up and persevere
And if you should fall a bit behind
I'll carry you on. I'll carry you on from there
I'll carry you on. I'll carry you on from there
