

Feels Like The First Time

Mark Medlock

Like an old time movie you give love all just to me,
When we fly on broken wings, you are my everything.
Like an angel calls tomorrow, like a kiss with no sorrows,
And whatever you will be, you're my destiny.
You can run but you can't hide away from me.
Our love it feels so good as mystery.
I'll never leave you and I'm dreaming:

Feels like the first time, your love will be mine.
Can I live without your love? Oh, I feel that I can't get enough,
See what this great love can do.

All these dreams last forever, and I stay with you together,
You are always on my mind till the edge of time.
Every time when you touch me, it's like a storm in the movie,
Listen to your heart and see, love is always free.
You're like a child and like a fire, too. Our love is as a secret rendezvous.
I'll never leave you, and I'm dreaming:

Feels like the first time, your love will be mine.
Can I live without your love? Oh, I feel that I can't get enough,
See what this great love can do.

Feels like the first time, your love will be mine.
Can I live without your love? Oh, I feel that I can't get enough,
See what this great love can do.

Like an old time movie you belong just to me - like the first time.
