

# Hungry For Your Love

Mark Medlock

I'm hungry for your love

I'm just a lonely traveler

And baby if you call me

I will stay with you

I'm hungry for your love

And when the night is calling

And baby if you need me

I will stay with you

Somebody will love you, baby that is true

Somebody will ask you, for a rendezvous

Somebody will tell you, that you're a shining star

Somebody will teach you, cause angels are so far

I'm hungry for your love

I'm just a lonely traveler

And baby if you call me

I will stay with you

I'm hungry for your love

And when the night is calling

And baby if you need me

I will stay with you

Somebody will teach you, like a stupid child

Somebody will help you, if you running wild

Somebody will tell you, that you're a shining star

Somebody will teach you, cause angels are so far

I'm hungry for your love

I'm just a lonely traveler

And baby if you call me

I will stay with you

I'm hungry for your love

And when the night is calling

And baby if you need me

I will stay with you

Hungry for your love (love love love... wiederholt  
sich)

I'm hungry for your love

I'm just a lonely traveler

And baby if you call me

I will stay with you

I'm hungry for your love

And when the night is over

And baby if you need me

I will stay with you

I'm hungry for your love

I'm hungry for your love

I'm just a lonely traveler
