

Just Like Heaven

Mark Medlock

Uh...
Hello...that what we are called.
Just like heaven...every moment.

Once someday I really like diamonds.
And the time, it's for no war.
I'm flying on the wings of an angel.
And I know where I belong.

Baby I want you to want me.
Baby I wanna like this.
And whatever will, it will be.
Babe, I'm waiting for your kiss.

Just like heaven...every moment.
All or nothing,
Baby, you can beat the best.
I know there is one way to go.
Just like heaven...between the shadows.
Day and day, I'm better than the rest.
I know there is one way I'll go.

Baby, could that be forever?
Or I feel now, it's my time?
Maybe we can dream together.
You're always in my mind.
Babe, I'm feelin' higher than heaven.
And I'm feeling that I'm so strong.
Come and close your eyes to seven.
Heaven is for everyone.

Just like heaven...every moment.
All or nothing,
Baby, you can beat the best.
I know there is one way to go.
Just like heaven...between the shadows.
Day and day, I'm better than the rest.
I know there is one way I'll go.

Uh...uh...
Uh...
Heaven is for everyone.

Just like heaven...every moment.
All or nothing,
Baby, you can beat the best.
I know there is one way to go.
Just like heaven...between the shadows.
Day and day, I'm better than the rest.
I know there is one way I'll go.

Uh...uh...

There is just one way I'll go.
