

Moment Of My Life

Mark Medlock

Ohhhhhhh yeahh

Nights, nights began to drag me down, tell,
me if I was just your clown

You're a man for me, baby can you see
You and me together, forever

Nights, looking for a perfect day
Love, love was just a breath away

Tell me that it's love forever a great love
You and me together, forever

Refrain:

It's the moment of my life
Do you feel that this love survive
The moment of my heart
It's a new beginning like a start
Was it just a dream for me

I'll never meant to make you cry
one have you done no tell me why?
All you brake my heart
You brake it on my dreams
You and me together, forever

Refrain:

It's the moment of my life
Do you feel that this love survive
The moment of my heart
It's a new beginning like a start
Was it just a dream for me
