

Real Love

Mark Medlock

In the dark is the night
This is your night
Real love

Nananananananana nanananana real love
It's real love, it's real love
Come on baby

Nananananananana nanananana real love
It's real love, it's real love
I gave you real love

Deep in my heart there's a fire
Burning deep inside
One love, one heart
Baby feel the night

Can you feel the emotion
It's like a burning sea
One love, one heart
Believe me misery

Nananananananana nanananana real love
It's real love, it's real love
Come on baby

Nananananananana nanananana real love
It's real love, it's real love
I gave you real love

Can't you see, it is burnin'
turnin' into love
One love, one heart

I will send you roses
Haven't flight to real
There is one chance and romance
Baby feel it free

Nananananananana nanananana real love
It's real love, it's real love
Come on baby

Nananananananana nanananana real love
It's real love, it's real love
I gave you real love

Oh my baby

Nananananananana nanananana real love
It's real love, real love

I said real love

Nananananananana nanananana real love
It's real love, it's real love
I gave you real love
