

Sad Sad Story

Mark Medlock

Love has many colours
and the passion rules the game
you and me together
will never be the same
all i ever wanted
is to fly the wings of love
just you and me together
in love is not enough
all the night my heart just calls your name
baby will i see you smile again

[Chorus]

if you find another sad sad story in your heart
if you ever had a love like this don't tear apart
if you lonely,i'm the only,one for you baby
if you find another sad sad story in your heart
if my lonely heart is weak i never try a start
if you're lonely,i'm the only,one for you baby

love is like a river
sometimes like a violine
you and me together
we are playing this game
you're a kiss from heaven
and everthing will turn out fine
you and me together
just like the first time
feelings are the hardest words to say
oh,i feel it's stronger every day
