## **Seven Days**

## **Mark Medlock**

Uh...uh...uh

Oh why we can't touch the sky? There's no reason why You hurt my heart. Oh why you will make me blue? It's just me and you And no one else. Please don't believe what they're telling about me. I love you, my babe, can't you see?

Seven days and seven lonely nights I can't hold baby by my side. Love me everything in my life. Seven days and seven lonely nights Babe I love you to the day I die. Where for your love since I seen you. Since I saw you baby.

Oh try to give us one more chance For a new romance closer than close. Don't cry Baby you're self-blind. You're all my mind for my whole life. Remember my words Ever be away. I love you babe night and day.

Seven days and seven lonely nights I can't hold by baby my side. Love me everything in my life. Seven days and seven lonely nights Babe I love you to the day I die. Where for your love since I seen you. Seven days and seven lonely nights Oh I'm waiting just to hope you tie Like the sunshine in the wintertime. Uh...oh... I miss you...

Seven days and seven lonely nights I can't hold Baby by my side. Love you... In my life... Lonely nights... Heyaha... Since I seen you...
