

# Wild Wild World

Mark Medlock

When the night is coming to an end  
and you say I'm leaving you  
When the love is over again  
I don't wanna talk but it's true  
stop the sun from shining  
turn my live to blue  
but baby  
I'm not over you

And it's a wild wild  
a wild wild world  
baby its like fire and brain  
it's a wild wild  
a wild wild world  
no one knows where it will end

When the night comes fall infront the sky  
i noko that you never ome back  
i feel the hearty  
and I know why  
why you making me so mad  
why do all the lovers  
break each others heart  
but baby  
I'm not over you

And it's a wild wild  
a wild wild world  
baby its like fire and brain  
it's a wild wild  
a wild wild world  
no one knows where it will end

stop the sun from shining  
turn my live to blue  
but baby  
I'm not over you

And it's a wild wild  
a wild wild world  
baby its like fire and brain  
(ohoh you)  
it's a wild wild  
a wild wild world  
no one knows where it will end  
(I'm not over you)  
And it's a wild wild  
a wild wild world  
baby its like fire and brain  
it's a wild wild  
a wild wild world  
no one knows where it will end
