

Carnival

Mark Owen

Am I loser or a fool?
And everything that I'm supposed to be
Feels like I've fallen from grace
And into a place where I belong
I know my body's getting old
One day we will fall down

But in my heart a drum is beating
A carnival inside my head
Before they turn the music off
Before they tell us to go home again
Can I kiss your face
And tell you always I love you

Before we change our minds
Can we go dancing somewhere
'Cause in my heart a drum is beating
A carnival inside my head

And when we talk in so many words
We've got to live this life a bit harder
And when we think in so many words
We've got to bring each other together
We've got to bring each other together

Before we wake up all alone
Before the rhythm has to start again
Can I watch you climb?
Climb over the widths of history

You keep your medals in the drawer
I wonder who they're for
Can we go dancing on the water?
A carnival inside my head

And when we talk in so many words
We've got to live this life a bit harder
And when we think in so many words
We've got to bring each other together
We've got to bring each other together

We've got to bring each other together
We've got to bring each other together
We've got to bring each other together
We've got to bring each other together

Together, together
Together, ooo

Together, together
Together, ooo

There's a drum that's beating in my heart
And inside my head, there is a carnival
There's a drum that's beating in my heart
And inside my head, there is a carnival
And inside my head, there is a carnival

Together, together
Together, ooo

Together, together
Together, ooo
