

If You Weren't Leaving Me

Mark Owen

I'm gonna stand on your parade
I need to jump into your grave
Gonna stalk you I'm afraid
Wanna be your F'ing pain
By the way, you know it's all your fault

Yeah I will get into your head
And everyday out of your bed
I'll buy you roses, paint em red
And then I'll take you shopping

So come and get it,
What the hell you waiting for
What you waiting for

We could run away
We could climb a tree
We could crash a car
Be celebrity
We could rob a bank
We can play guitar
We can shoot a gun
We can go too far

Bring it on now,
Get it on now
Bring it on now,
Get it on now
All the things that we,
All the things that we could be
If you weren't leaving me

I'll carve your name into my skin
And every place that you have been
Watch you dream while you're asleep
I haven't slept now for a week

So come and get it,
What the hell you waiting for,
What you waiting for

We could run away
We could climb a tree
We could crash a car
Be celebrity
We could rob a bank
We can play guitar
We can shoot a gun
We can go too far

Bring it on now,
Get it on now
Bring it on now,
Get it on now
All the things that we,
All the things that we could be
If you weren't leaving me

Yeah we'll jump from a plane
Then we'll do it again
That's what life is about
So we'll take a year out
And we'll learn politics,
And some new party tricks
And we'll call our friend John
John

We'll drink in a bar
We'll walk in the park
We'll meet at the end
And again at the start
And we'll look for the light
When the daylight has gone
Then we'll run out of breath
Take the whole world on

Yeah yeah,
Yeah yeah,
Yeah yeah

We could run away
We could climb a tree
We could crash a car
Be celebrity
We could rob a bank
We can play guitar
We can shoot a gun
We can go too far

Bring it on now,
Get it on now
Bring it on now,
Get it on now
All the things that we,
All the things that we could be
The things I'd do for you

1 cry out
2 free a bird
3 get a better job
A 4 letter word
5 is a hi-fi
6 on the beach
24/7 baby,
eight days a week

Come on now,
Get it on now
Come on now,
Get it on now
All the things that we
All the things that we could be
If you weren't leaving me

(We could run away
We could climb a tree
We could crash a car
Be celebrity
We could rob a bank
We can play guitar

We can shoot a gun
We can go too far
Bring it on now,
Get it on now
Bring it on now,
Get it on now
All the things that we,
All the things that we could be)
