

High

Mark Ronson

Now the world seems so cold
And you got no where to go
But you know in your soul
There is love
(There is love)

And I'm search
Searching for
And I feel I'm not the only one
You can find it in the music
All you have to do is show
(All you do is show)

Life is too short
So while we here we
Gotta spread a little love
And get high
(And get high)
On the music 'cause it feel so right
