

# I Will Love You Still

Mark Schultz

If ever you should fall  
If ever you should break  
If ever you should turn from me  
and slowly walk away

I will love you still

Oh you don't have to speak  
Don't even Say a thing  
You don't have to proof yourself  
or give me anything

I will love you still  
Yes, I will love you still

And over back  
whats passed it's past

I will love you still  
Yes, I will love you still

No matter where you've bin  
to every struggle in the air  
You know  
that I will love you still
