

Friends For Life

Mark Wills

You and me we're birds of a feather
As natural as honey to a bee
You won't see one without the other
And that's the way it's always gonna be

'Cause we're friends for life
Heading down the road together
Anywhere we are is paradise
Ain't it nice, dreaming dreams with each other
Come what may we're gonna be alright
'Cause we're friends for life
Well you sure can pull a catfish from the river
You know how to read and write from school
And when we put our heads together
Buddy there ain't nothing we can't do

Well Huck I wouldn't be afraid to swim the river
Or sail a little boat across the sea
You know I'd even face a fire breathing dragon
As long as you were facing it with me

Yee Haw!
Oh, we're friends for life
Oh, just you and buddy, we're friends for life
Ah, We're friend for life
Ah, we're friends for life
