

# I Just Close My Eyes

Mark Wills

Wheels are turnin'  
I feel my whole life spinnin' 'round  
Stars are burnin'  
I don't even know where I am  
Sometimes the road seems like such a crazy way to live  
Sometimes my dreams take more, more than I can give

When I need you  
Gotta see you  
I find a way to break through  
And I can almost feel your touch  
When I'm restless  
Feelin' desperate  
I know I'll never make it  
Without your love  
Even though you're a thousand miles away from me tonight  
I can see you, you're right here by my side  
I just close my eyes  
I just close my eyes

People surround me  
Still I feel so alone  
Lost and empty  
Every time we hang up the phone  
God knows I'd turn around and run to you right now  
I've still got three more nights and two more towns

I just close my eyes  
I just close my eyes
