

# Love Is Alive

Mark Wills

Steam on the window and the moon is bright  
We're just two people holding on tight  
The night is young and this feeling is strong  
The smile on your face is saying it all

Love is alive and well tonight  
Taking control like a raging fire  
Burning its way from your heart to mine  
Love is alive

The world is empty and cold at times  
But here in your arms I am warm inside  
Beyond any feeling I've felt or believed  
Bring on tomorrow I can face anything

Love is alive and well tonight  
Taking control like a raging fire  
Burning its way from your heart to mine  
Love is alive

Passion and kisses, fevered desires  
Constantly needing this feeling of ours

Love is alive and well tonight  
Taking control like a raging fire  
Burning its way from your heart to mine  
Love is alive

Out of control like a raging fire  
Burning its way from your heart to mine  
Love is alive
