

Love Is Alive

Mark Wills

Steam on the window and the moon is bright
We're just two people holding on tight
The night is young and this feeling is strong
The smile on your face is saying it all

Love is alive and well tonight
Taking control like a raging fire
Burning its way from your heart to mine
Love is alive

The world is empty and cold at times
But here in your arms I am warm inside
Beyond any feeling I've felt or believed
Bring on tomorrow I can face anything

Love is alive and well tonight
Taking control like a raging fire
Burning its way from your heart to mine
Love is alive

Passion and kisses, fevered desires
Constantly needing this feeling of ours

Love is alive and well tonight
Taking control like a raging fire
Burning its way from your heart to mine
Love is alive

Out of control like a raging fire
Burning its way from your heart to mine
Love is alive
