

Take It All Out On Me

Mark Wills

Leave it up to life
To bring a good woman down
It took three glasses of wine
Oh but your comin' round
Go on and let down your hair
Yea there's the girl I know
Lets leave the world out there
And lock the door

Forget about the day you had
It's over baby let it be
Every little things gone bad
I know exactly what you need
Turn out the lights
And take it all out on me

Just bring the bottle to bed
We'll lay there and talk for a while
And when everything has been said
Yea were gonna find your smile

Forget about the day you had
It's over baby let it be
Every little things gone bad
I know exactly what you need
Turn out the lights
And take it all out on me

Forget about the day you had
Yea it's over baby let it be
Every little things gone bad
I know exactly what you need
Turn out the lights
And take it all out on me

Come on baby
Take it all out on meeee
Ohh
