

Where Did I Lose You

Mark Wills

Like a cable car running through my mind
You're stoppin' at every place in town
Something I can't put my finger on
You're sittin' right here next to me
You might as well be
A ghost in my dreams
Baby how'd I let you get so gone

Tell me
Where did I lose, where did I lose
Where did I lose you?

Was it three years ago in Santa Fe
Or early morning yesterday
It don't matter anyway, you're gone
Are you lost at the bottom of a cracker jack box
A dime story nobody wants
Is that baby how I made you feel

Please tell me
Where did I lose, where did I lose
Where did I lose you?

Are you folded at the top of a laundry basket
Sweepin' the floors of a three bedroom house that
Keeps you crying all day long
Have you been crushed by one weaker car
Have you done everything but come undone
All I know is you're gone

We were perfect as a blood red rose
But dreamers in thorns are hard to hold
Tell me baby I need to know

Please tell me
Where did I lose, where did I lose
Where did I lose you?

Where did I lose, where did I lose
Where did I lose you?
(2x)

Where did I lose, where did I lose you?
Tell me
Where did I lose, where did I lose
Where did I lose you?
