

California Soul

Marlena Shaw

Like a sound you hear
That lingers in your ear
But you can't forget
From sundown to sunset

It's all in the air
You hear it everywhere
No matter what you do
It's gonna grab a hold on you

California soul, California soul
They say the sun comes up every morning
And if you listen carefully
The winds that ride on the high time
Whistle a melody
And so the people started to sing
And that's how the surf gave birth untold
California soul, California soul

When you hear the beat
You wanna pat your feet
And you've got to move
'Cause it's really such a groove

Puts a brand new kind of thinking in your mind
And you can't go wrong
'Cause you're groovin' all day long
California soul, California soul

They had the melody and the beat
But it still didn't seem complete
Until they saw two lovers kissin'
They knew just what was missin'

So happy they were rockin' and reelin'
Because they added that lovin' feeling
To California soul, California soul
California soul

California
California
California
