California Soul

Marlena Shaw

Like a sound you hear That lingers in your ear But you can't forget From sundown to sunset

It's all in the air You hear it everywhere No matter what you do It's gonna grab a hold on you

California soul, California soul They say the sun comes up every morning And if you listen carefully The winds that ride on the high time Whistle a melody And so the people started to sing And that's how the surf gave birth untold California soul, California soul

When you hear the beat You wanna pat your feet And you've got to move 'Cause it's really such a groove

Puts a brand new kind of thinking in your mind And you can't go wrong 'Cause you're groovin' all day long California soul, California soul

They had the melody and the beat But it still didn't seem complete Until they saw two lovers kissin' They knew just what was missin'

So happy they were rockin' and reelin' Because they added that lovin' feeling To California soul, California soul California soul

California California California
