

## Demon

**Marmaduke Duke**

Oh baby, it's been so long since I felt your vibration  
Oh so long, since you took me to that place  
So long have I heard your ignition, I always kept that feeling  
to this day yeah  
I'm goin' to that city, oh sweet city, can't help lovin' that h  
ometown city  
That little red house, the point of no return, it's calling out  
to me  
Get one together, get one together please
