

Love You Good

Marmozets

Gonna love you, gonna love you, gonna love you good.

I'm gonna say the first thing that comes into my mind
it's not impressive but I've got you by my first line
your explosive hypnosis gets me every time it gets me every time

Cos you know that I would help you out
if I could this isn't a joke
I like the way that you look
I like the way that you look
I like the way that you look

Gonna love you, gonna love you, gonna love you good.
Better than anyone.
Gonna love you, gonna love you good.
Cos you are my only one.
Gonna love you, gonna love you good.
Gonna love you, gonna love you, gonna love you good.

I got to give it up to you for being up for it.
It's not easy it's not easy no it's not a bit
It's not easy it's not easy no it's not a bit
but I got you by my first line (one two three)

I'm gonna say the first thing that comes into my mind
it's not impressive but I've got you by my first line
your explosive hypnosis gets me every time it gets me every time

Cos you know that I would help you out
if I could this isn't a joke
I like the way that you look
I like the way that you look
I like the way that you look

Gonna love you, gonna love you, gonna love you good.
Better than anyone.
Gonna love you, gonna love you good.
Cos you are my only one.
Gonna love you, gonna love you good.
Gonna love you, gonna love you, gonna love you good.
